**Keynote: Sis, You Got This!**

Women and especially women of color comprise one of the fastest-growing segments in corporate America. Yet, often they are underrepresented, underpaid, invisible and in many cases the "only" or, one of a few at their corporate tables. They fear they must change to be successful while compromising the very essence of who they are. Best-selling author, Joy Fitzgerald pulls together a wealth of experiences to help women successfully thrive in their careers.

In this session, Joy introduces her S.I.S You Got This! principle from her new book *Finding Authentic Rhythm: How to Win on YOUR Terms in Corporate America*. Participants will learn how to:

- Stop the noise that seeks to stifle your authenticity.
- Invest in relationship capital to grow your network with key influencers and decision-makers.

However that's not what female leaders actually experience. Professor Laura Huang's research shows that success in the professional world often comes down to subtle perceptions and attributions, signals and gut feelings, and pre-conceived stereotypes. But what if women could flip those stereotypes in their favor and create an advantage or edge? This enlightening, empowering talk explains how women and women of color, can guide and redirect those very stereotypes which hold them back, and sharpen them into a unique and sustainable edge.</p> <b>Laura Huang</b> , Author, Professor and Entrepreneur
